

## NEBOSH National General Certificate in Occupational Safety & Health

***A nationally recognised qualification and accredited by NEBOSH, National Examination Board in Occupational Safety & Health***

### 11-day course

#### Course overview

The Certificate is a widely recognised qualification and provides an excellent basic grounding in the essentials of health & safety for personnel accountable for these responsibilities in their organisation.

This course is split into 2 weeks and is an examined basic qualification for people involved in health and safety at work. It is designed specifically to provide the necessary knowledge for non-specialists to be able to understand and carry out their roles effectively in the work place.

#### Who the course is for

The course is targeted at managers, supervisors, safety representatives and any non-health and safety specialists who need a grounding and recognised health and safety qualification.

#### Course content

- Safety and health foundations
- Safety and health management
- Monitoring, auditing and reviewing risk assessment
- Principles of control
- Accident investigation
- Movement of people, vehicles and loads
- Work equipment
- Construction safety
- Physical and psychological health hazards
- Fire safety
- Control of substances hazardous to health

#### Certification

nebosh  
Accredited Centre  
697

Delegates who successfully complete two 2-hour written papers, plus a practical assessment will receive a NEBOSH National General Certificate.

***Please note: If a candidate fails the examination, they may re-take the examination by paying the appropriate re-sit fees.***

BIFM Training are delivering this course in association with SMTS Ltd, an accredited centre provider of NEBOSH courses.
